

# Wear an Emergency Response Device in Style

## Did you know..

QMedic offers a versatile easy to use Smart Watch style PERS/ERS that allows members to wear a device that is aesthetically pleasing while keeping them safe!

**QMedic**™

## Benefits of device

- ✔ The Smart Watch is a great choice for your members who want to avoid the stigma of wearing a traditional help button.
- ✔ It's easy to activate and only takes 1 hour to charge.
- ✔ Many different bands allow members to try different options and pick the best fit for their lifestyle, including a lockable band.
- ✔ Easy to activate and easy to cancel SOS button, helps members feel confident they won't have the device go off on accident.
- ✔ Direct dial options allow care managers and families to reach their members over their device.
- ✔ Offers a text to locate feature where caregivers can text the member's name to a number to determine their exact location.
- ✔ This watch also has the ability to offer fall detection along with continuous tracking service.
- ✔ In addition to safety features, this watch also counts steps, provides date and time and also calculates basic vitals.
