

BLUE PLUS TRANSITIONS OF CARE (TOC) LOG

TOC tasks should be completed by the CC within one (1) business day of notification of each transition. Follow up contact with member is required after return to their usual care setting. Note: If CC finds out about the transitions fifteen (15) days or more after the member has returned to their usual care setting, no TOC log is needed. However, the CC should check in with the member to discuss the transition process, any changes needed to the care plan and document it in a case note.
